July 20, 1969: One Giant Leap For Mankind

Neil Armstrong and Buzz Aldrin left behind an American flag, a patch honoring the fallen Apollo 1 crew, and a plaque on one of Eagle's legs. It reads, "Here men from the planet Earth first set foot upon the moon. July 1969 A.D. We came in peace for all mankind."

Lots to See and Do!!

See the Delaware Humanities “DESTination: Space” Exhibit which features a seven-foot tall timeline, visually depicting space exploration years from the first person in space in 1961 through the last of the Space Shuttle missions in 2011.

Stand in the footprint of an astronaut. Try out DASEF’s Moon Boots. See photos made from the original negatives of the Apollo astronauts and Apollo memorabilia. Experience DASEF’s 15’ by 15’ Giant Moon Map. Kids can have fun in the Rocket Bounce and everyone can try some of the Lunar and Space activities under Lunar Tent.

Mission Objective

The primary objective of Apollo 11 was to complete a national goal set by President John F. Kennedy on May 25, 1961: perform a crewed lunar landing and return to Earth.

Lots to See and Do!!

NASA has been directed to land American astronauts on the Moon by 2024, and the agency is working to accelerate humanity’s return to the lunar surface.
